MARKET – Strong sales growth in recent years

Sales Value (in 1000) in 2023

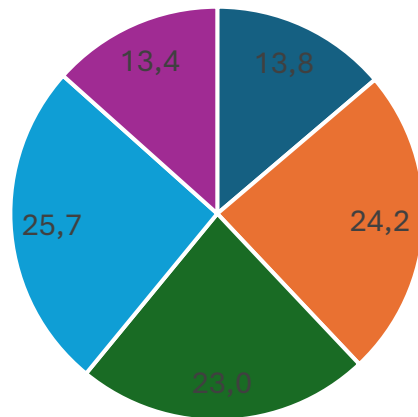

Category growth (%)

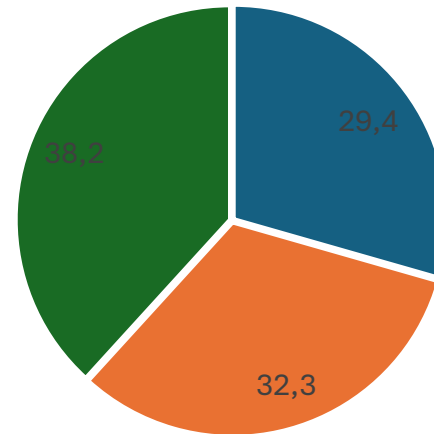

Demographics buying snacks

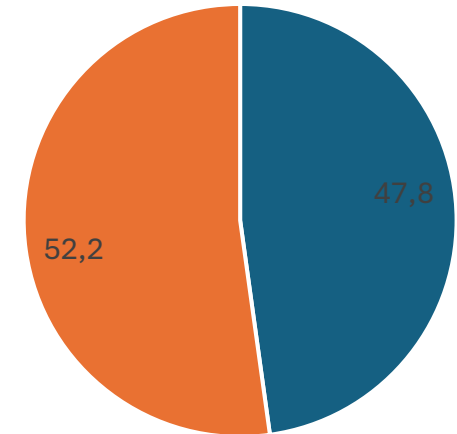

Ages

Users by income

Users by gender

■ 18-24 years ■ 25-34 years ■ 35-44 years
■ 45-54 years ■ 55-64 years

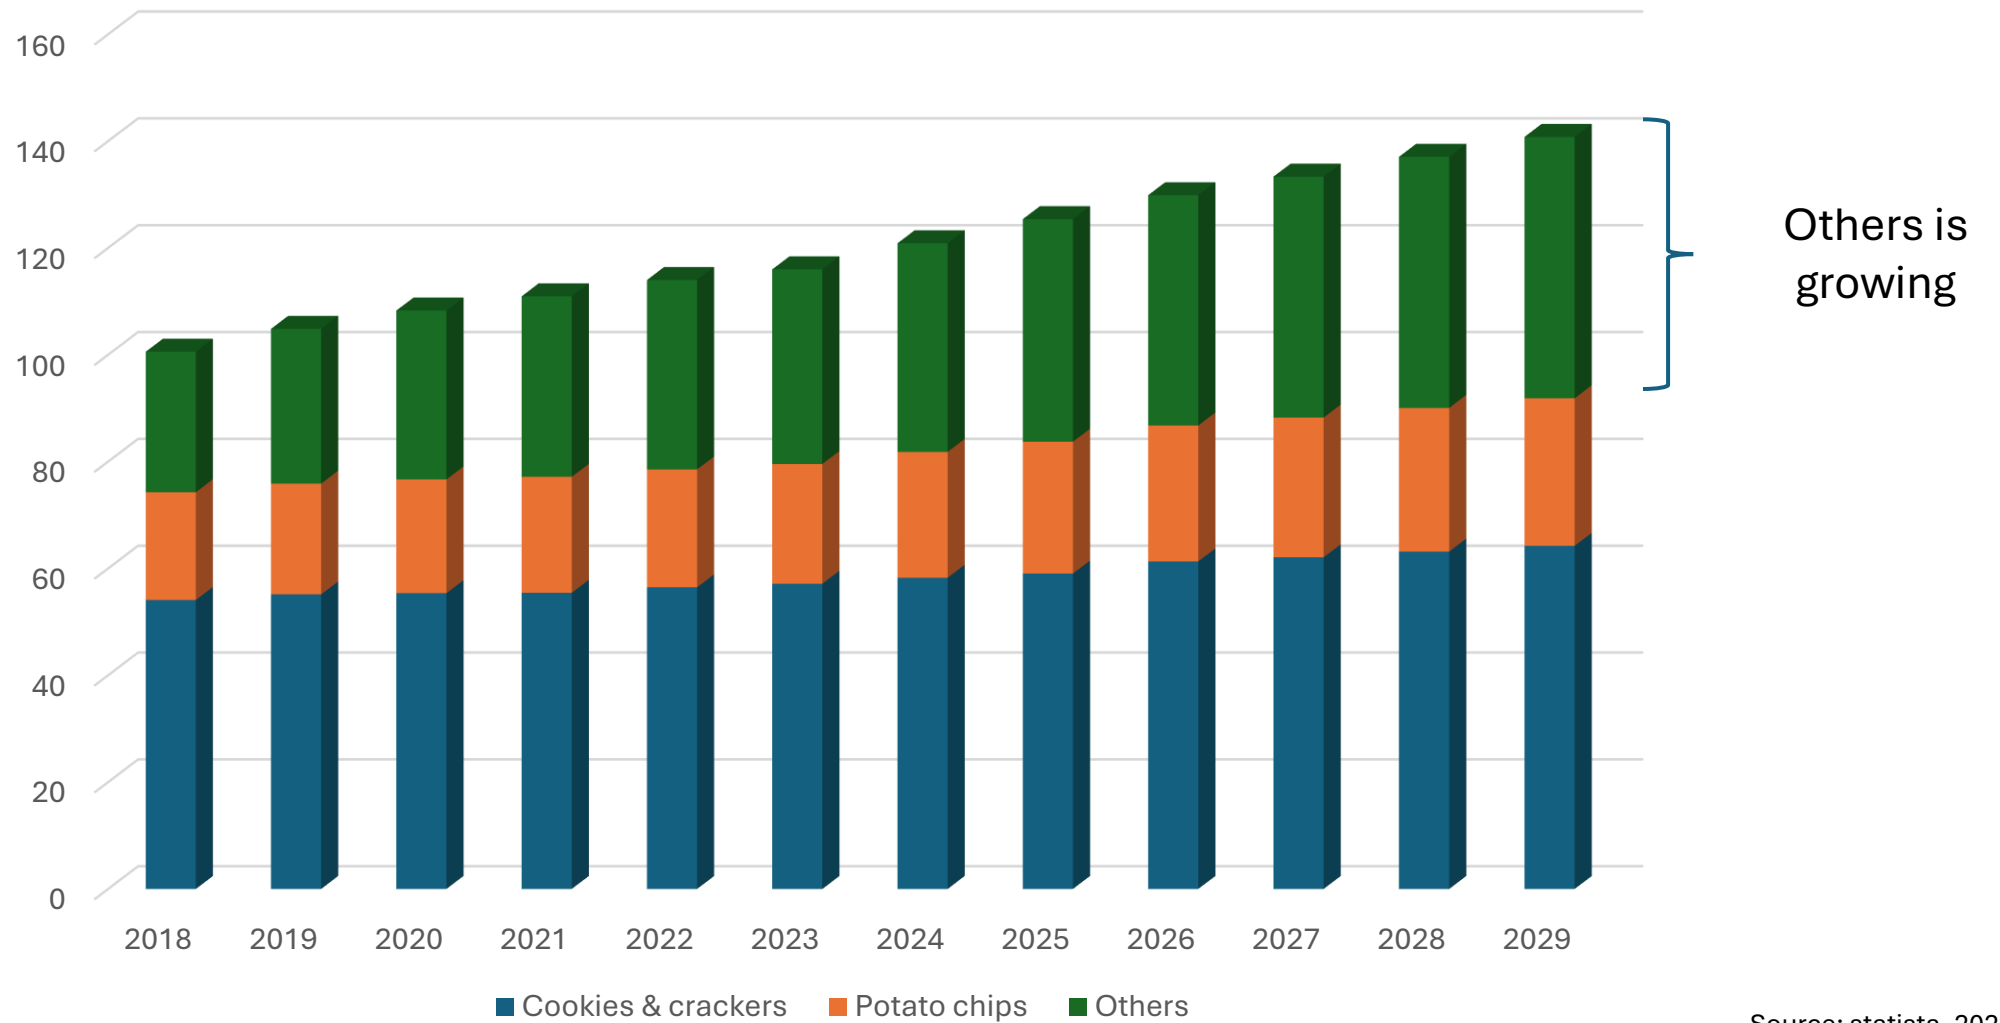

■ low income ■ medium income ■ high income

■ male ■ female

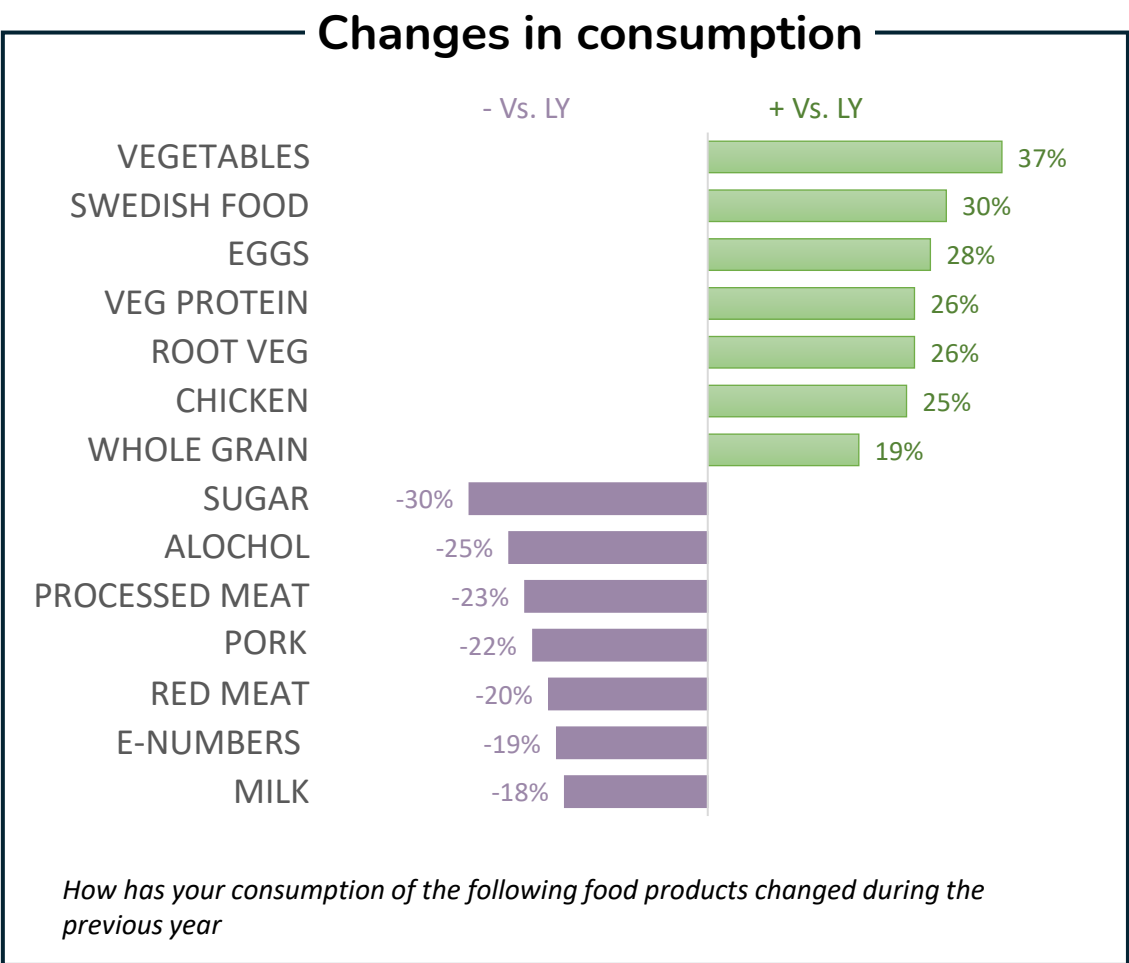

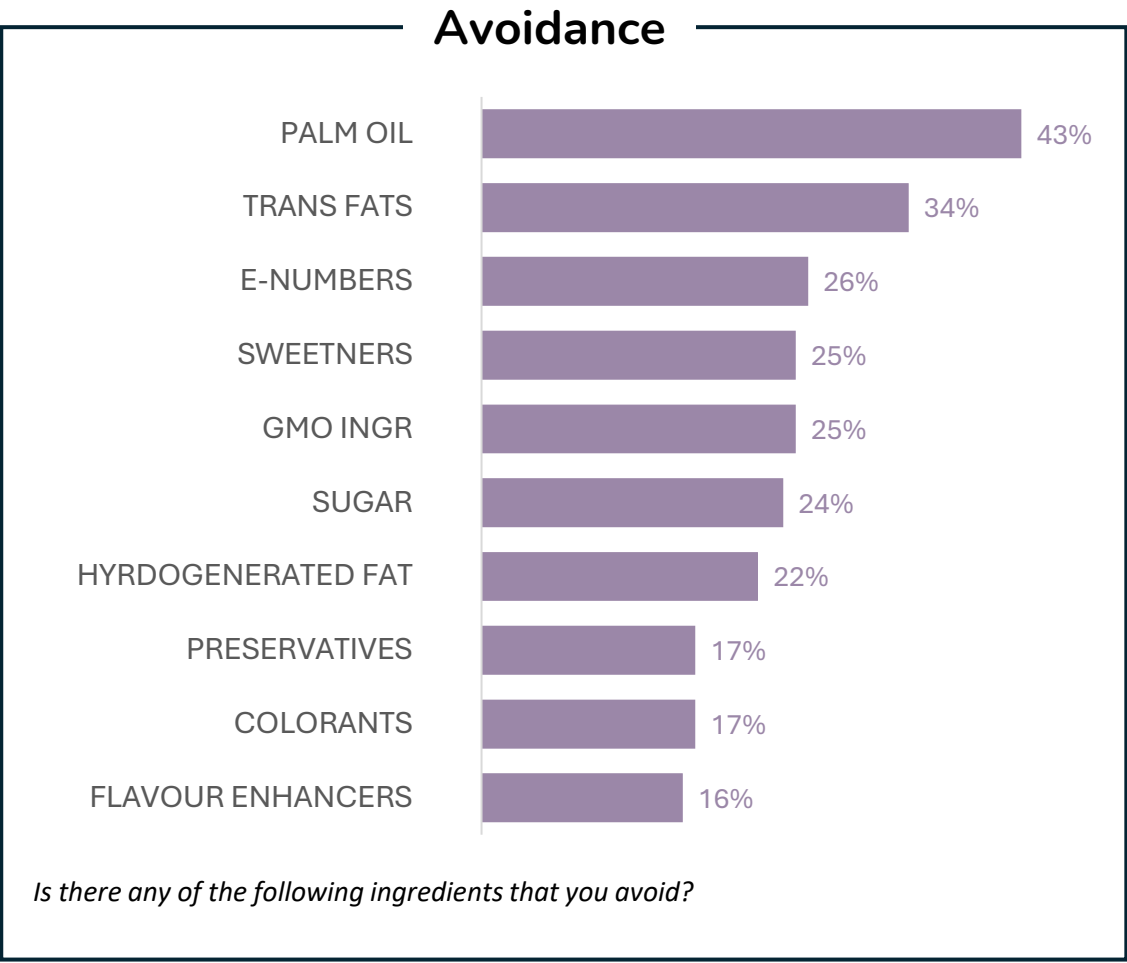

Between January 1 and December 3, 2023, the Swedish people consumed approximately 252,112,000 bags of snacks together.

Volume snacks market

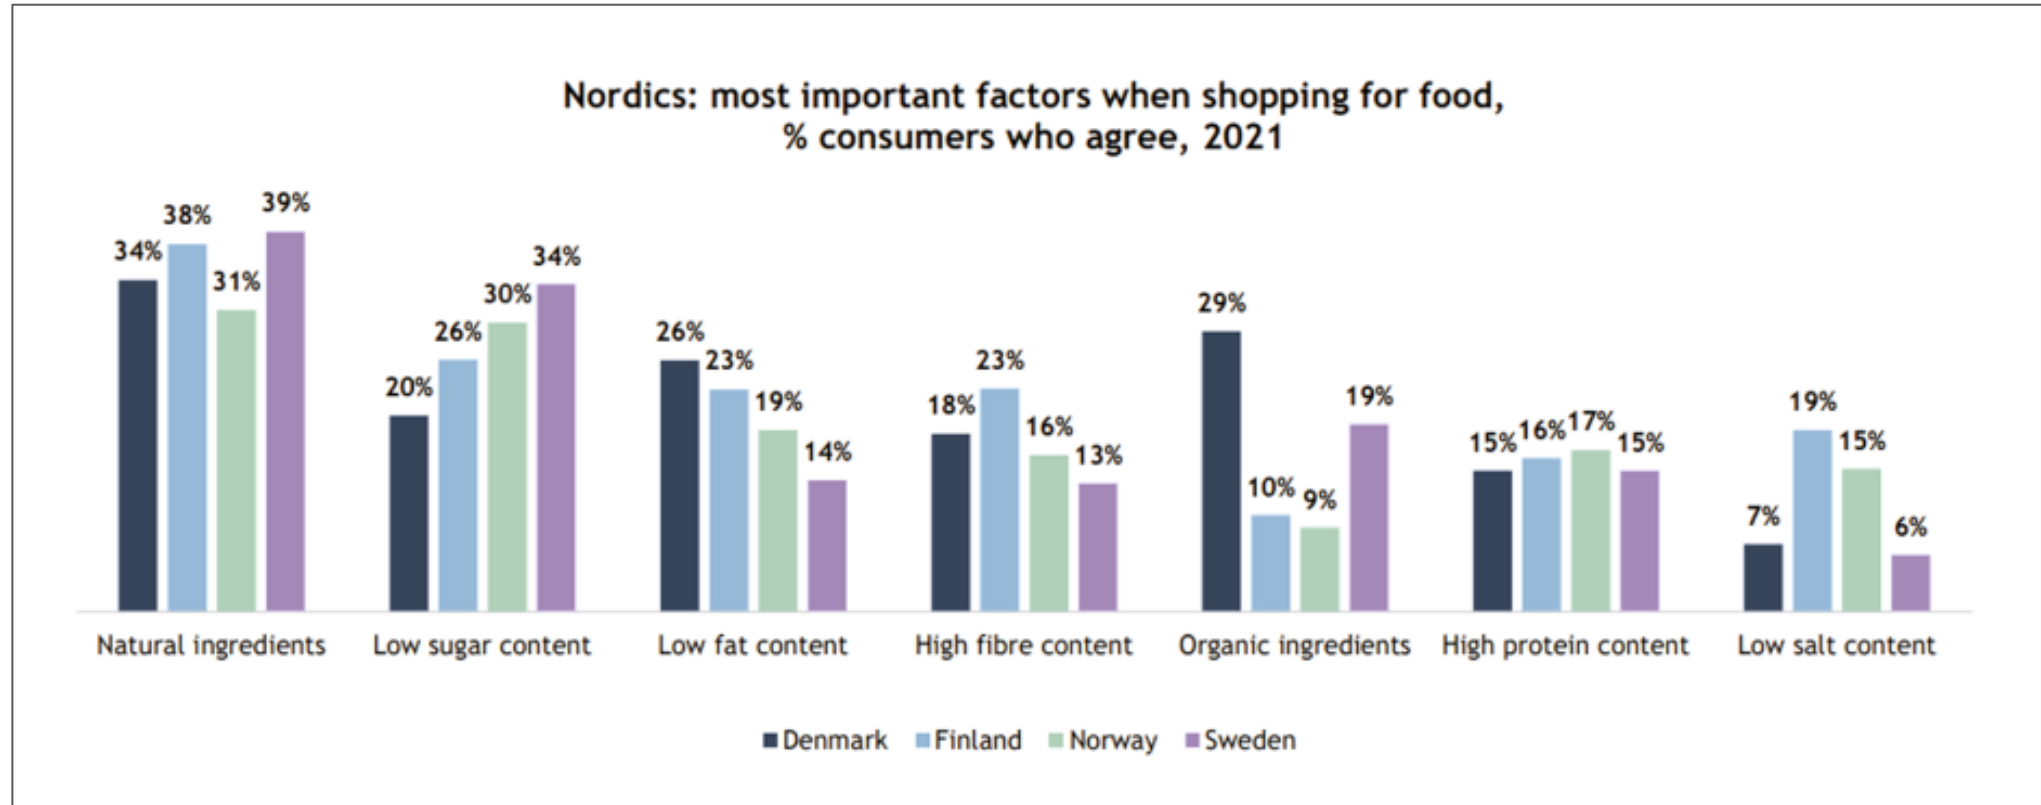

In million kg

Swedish consumers want to avoid additives in their food and beverages

"Natural" and "low sugar" are top health preferences in food & drink

3 trends supporting the increased demand for cheese snacks

Healthier options

Many consumers are searching for snacks that are not only tasty but also healthy. This has led to an increase in cheese snacks with natural ingredients and without additives

Snackification

Instead of eating large meals, more people choose to eat several smaller snacks during the day. Cheese snacks that are high in protein and filling are becoming increasingly popular as meal replacements

Cultural flavors

There is a growing trend to integrate flavors from different cultures into cheese snacks. Spicy and exotic flavors are becoming more common

Cheese snacks price segments

Segmentation recommendation

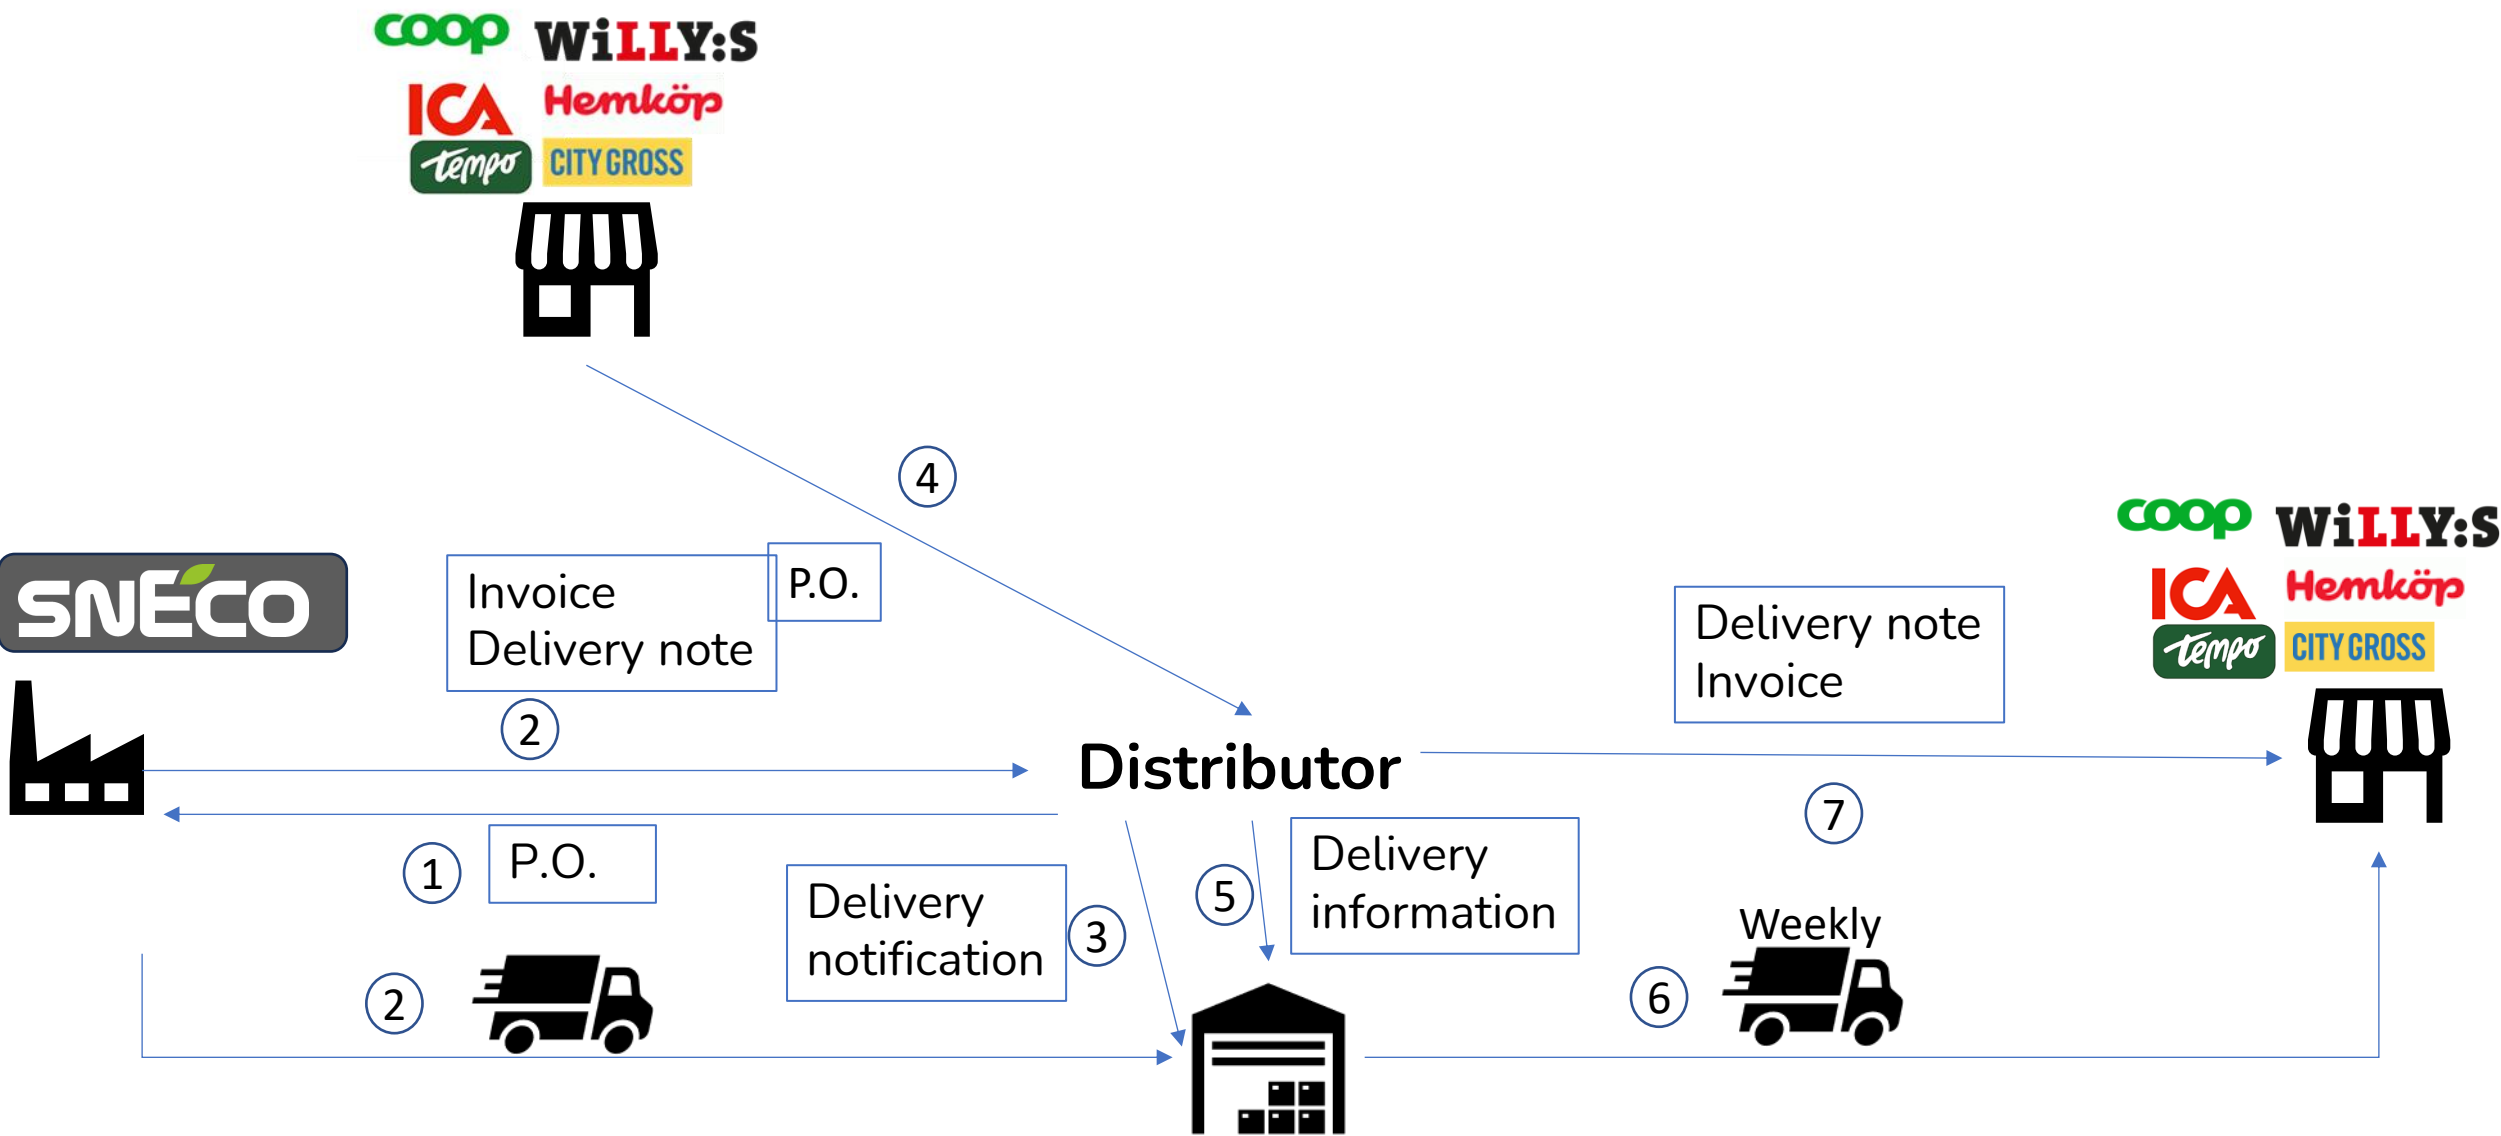

- Enter Premium segment
- Largest segment
- Easier to reach competitive price points

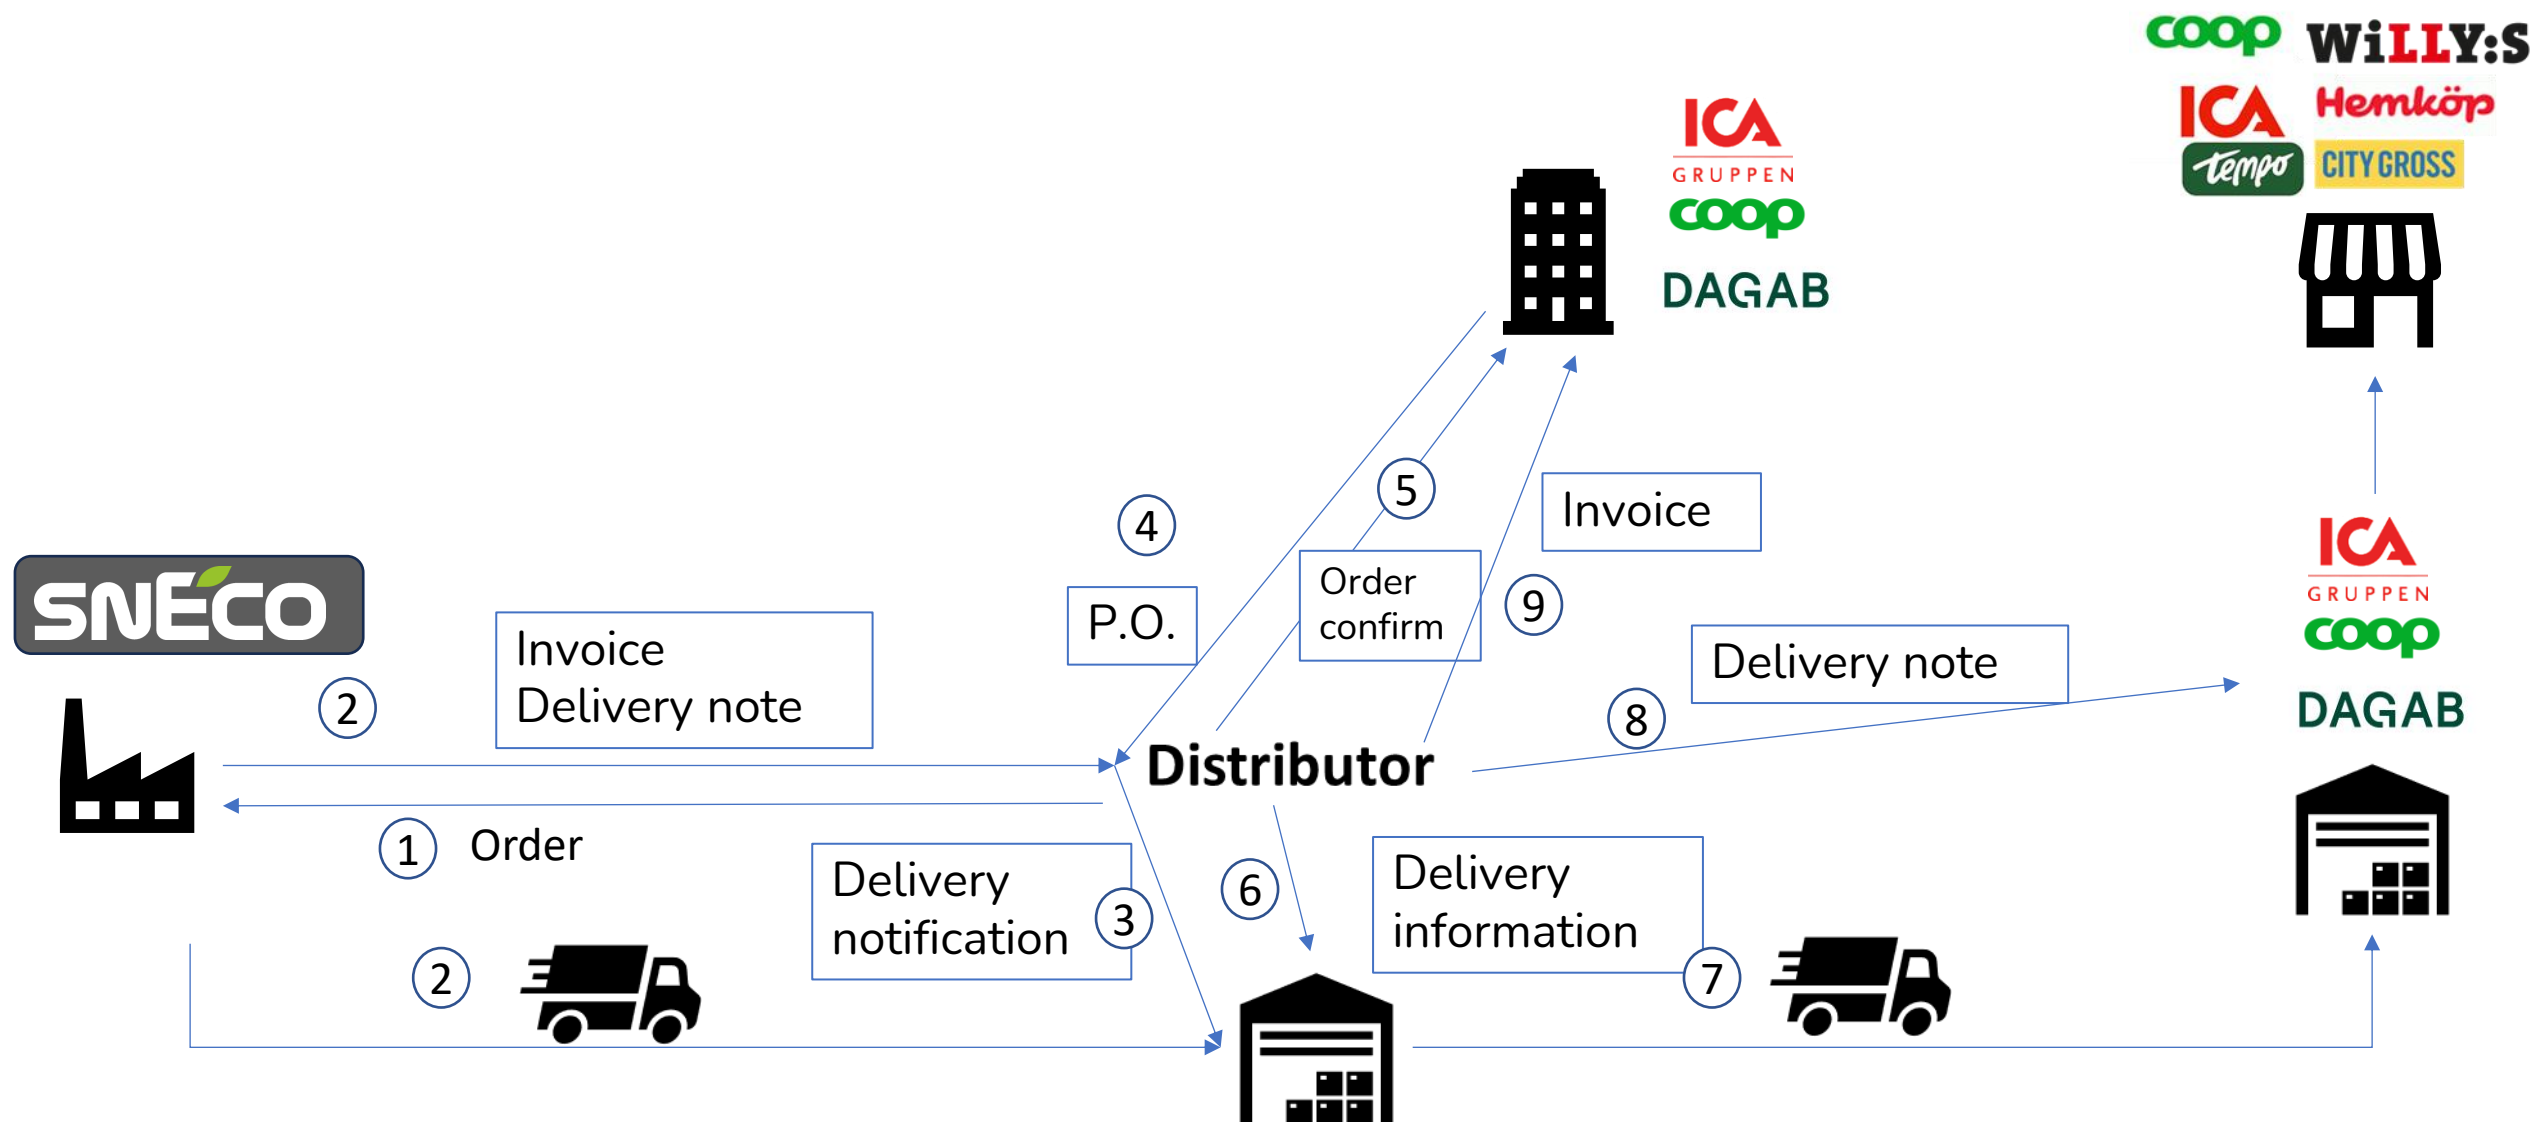

LOGISTICS

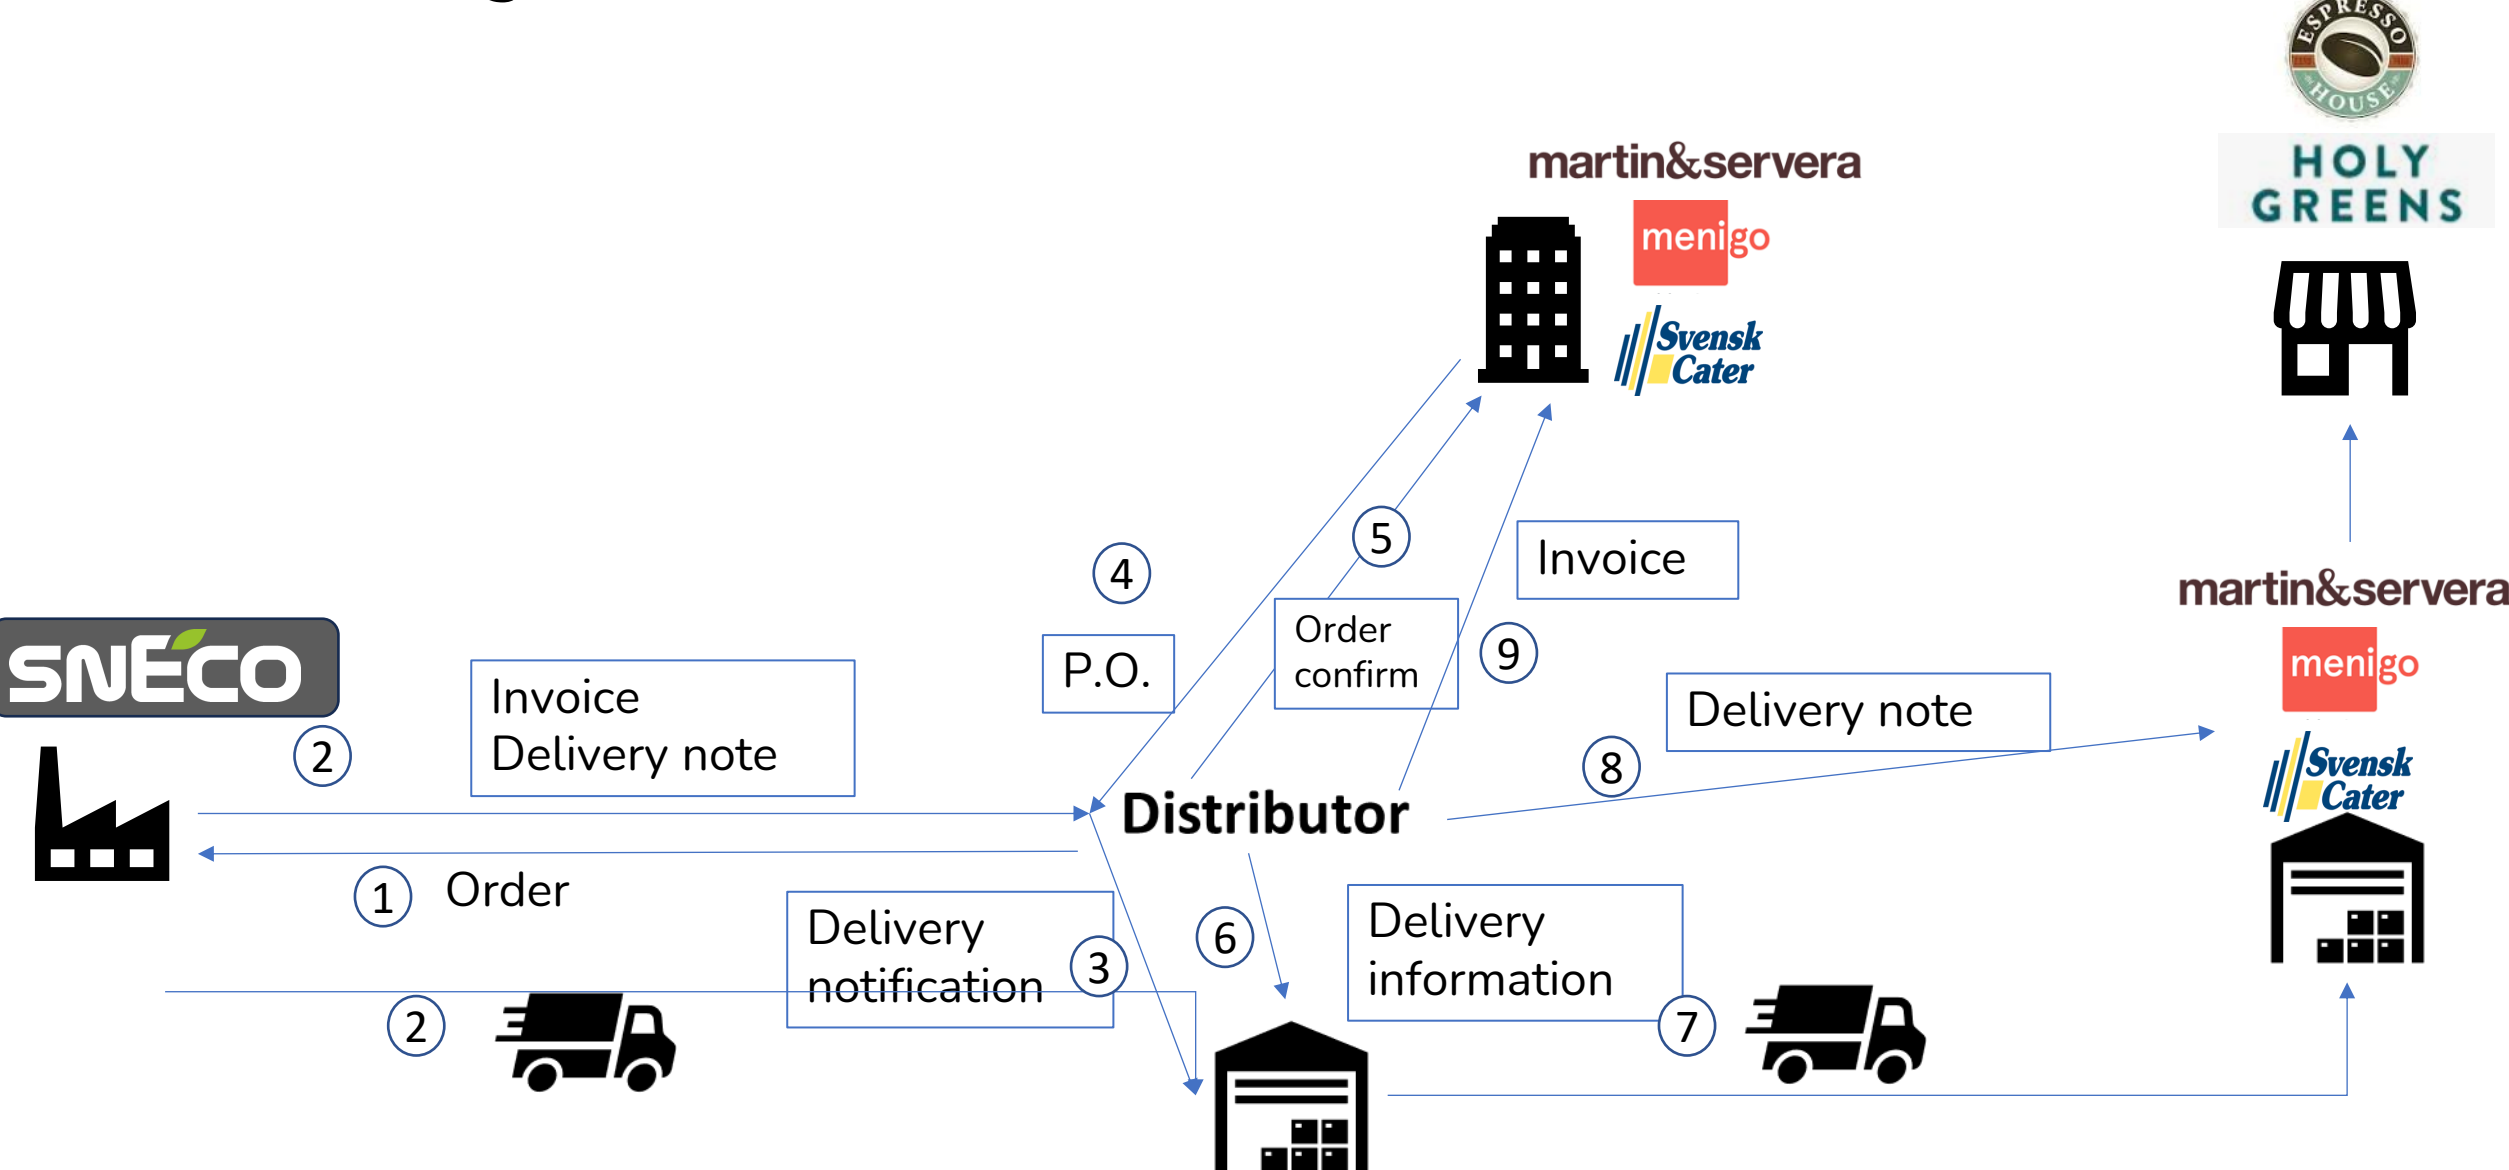

Flow for direct deliveries to stores

Flow for listings to central warehouses, retail

Flow for listings to central warehouses, foodservice

Recommendation for distributon

- Long term solution is the distributor supplying customers through central deliveries to wholesalers (central retail customers, foodservice wholesalers etc)
- Direct deliveries will be used to start with, before central listings have been achieved

A local partner is needed.

4. Complete trade item information including food information and the product image (marketing and planogram image) shall be sent for quality assurance*. See note. In this step, suppliers must order quality assurance in accordance with the GS1 standard	05-Jun 23
5. Trade item information & product images must be quality assured and approved in accordance with the GS1 standard	13-June 24
6. Detailed product range listing decision to supplier as well as a dialogue between the chain and supplier about forecasts	27-June 26
7. Bar Code must be quality assured and approved in accordance with the GS1 standard. Note new routine from revision week 11.	01-Aug 31
8. Preparation for launch/phase out	11-Aug 33
Revision area	Aug
Revision week, 2025	34
Revision date, 2025	18-Aug

Foodservice

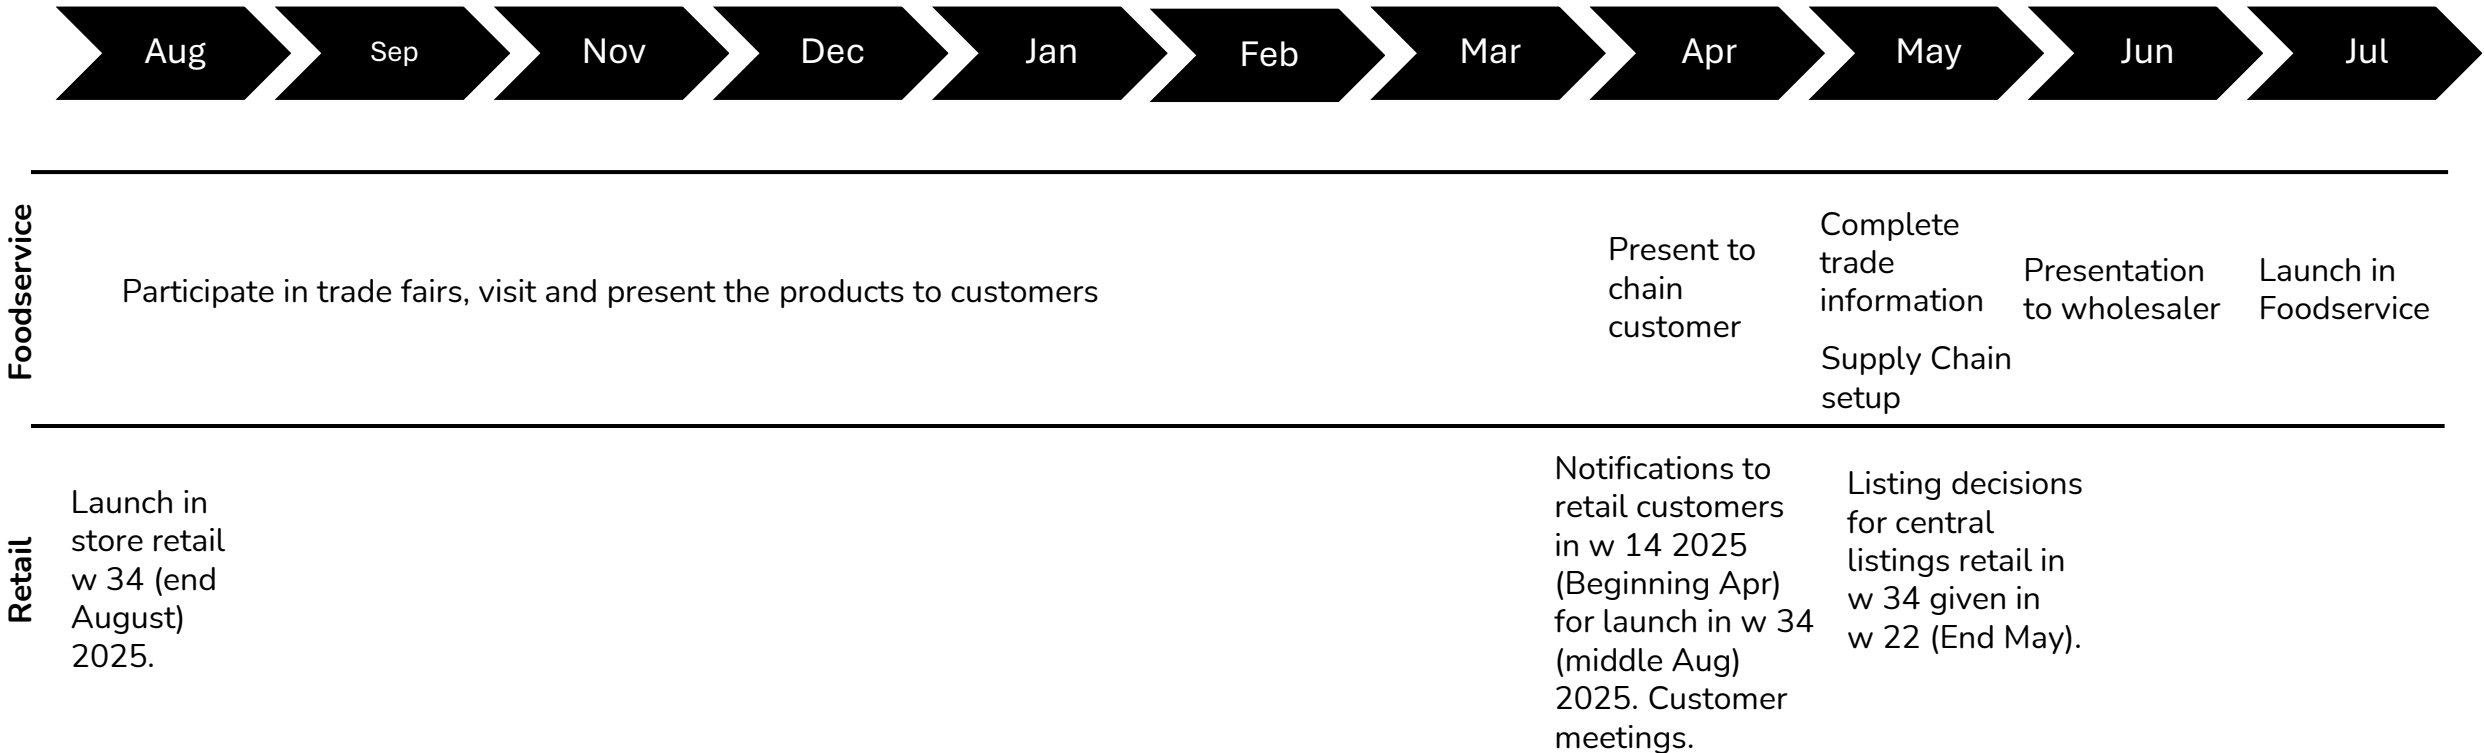

Step in process
1. Present to Chain customer to receive tender offers
2. Complete trade information including food information and the product image.
3. Presentation to wholesaler, with a volume chain customer to get listing
4. Launch upon agreement
5. Participate in trade fairs
6. Visit and present the products to customers
Repeat 5 and 6

*Estimated time: 6–9 months

Leadtimes to achieve central listnings

- example for launch in foodservice July 2025 and in retail August 2025

We start building distribution by targeting end customers one by one with sales reps visits/tele sales in parallell with planning for central listings

Thank you!
